Utah Schools In Good Shape.

Superintendent Nelson Files An Exhaustive Report With the Governor-Says Interest in Education in Utah was Never Beller-The Unit System and a School for the Feeble Minded Recommended.

State Superintendent of Schools A. C. or the years 1901-1902, with Gov. Wells. t is an exhaustive report on the eduational conditions of the state and ontains a number of important recomgendations for the advancement of the ducational Interests of the state, Some ry interesting statistics are also emodied in the report. Among the most portant recommendations which call for special legislation in the consolidan of the school districts in each ounty into one district to be under the entrol of a county board of education, ensisting of from three to seven mem-

This is called the unit system and Surintendent Nelson states that it would move many barriers that now retard ucational advancement. It would aplify and strengthen the school syssimplify and strengthen the school sys-tem; would assure economy in the ad-ministration of school affairs; and rould enable the schools to secure bet-erteachers, thus making better schools every respect. Superintendent Nei-a strongly recommends the enactent of a law that will secure all these SCHOOL FOR FEEBLE-MINDED.

Another recommendation of great im-Another recommendation of a school for feeble minded children. There are now more than 50 of such abldren in the state and there is absolutely no provision at the present time for their advancement in educa-ional matters. It is recommended that

uch a school be made a department of e school for the deaf and dumb and and. There should also be a custodiscontained in connection with the hool for the care of feeble minded ersons beyond the school age, or such ons not capable of being benefitted school instructions.

the report states that public intertin education today in Utah is more to educational needs and skers have also done their part to vantages. During the past two years the superintendent and his deputy have elivered 54 addresses to teachers' inande over 100 addresses to school patoses are increasing. In 1901 the total evenue was \$1,255,454.12 and in 1902 it was \$1,433,897.06 making a total for both years of \$2,719.351.18, which is an inease over the last preceding biennial riod of \$222,890.98. In 1901 there were 16.542 pupils attending school, the total whount expended for school purposes

EXPENDITURES.

That Utah is well up at the head of the column in the matter of expenditures for school purposes is shown by a comparison with a few other states of the Union. The amount per capita of the total population expended for school purposes in New York is \$4.60; Massachusetts, \$4.93; North Carolina, 51 cents; Georgia, 89 cents; Montana, \$3.51; Wyoming, \$2.74; Idaho, \$2.47; Colorado, \$5.18; Nevada, \$5.30. In Utah the amount in 1900 was \$4.03; in 190! \$4.87, and in 1902, \$5.20.

THREE-MILL LEVY.

Under the present law the county commissioners are authorized to levy four mills, and the district boards may levy a tax of five mills to defray the current expenses. Superintendent Nelson recommends that the levy be fixed by law at three mills, thus making it uniform and thereby relieving the difficulties under which some counties are struggling and will make the school term uniform in all districts. The practice of some district boards of neglecting to spend their apportionment for the employment of teachers should be discouraged. There is now a balance in that fund of \$66,155.63 which has come from counties where the term of school has been shortened to five or seven months and where they have employed the cheapest teachers on the market The superintendent argues that it is not a wise plan to accumulate money in such a manner and thereby deprive of boys and girls of the advantages for which the apportionment was made.

SCHOOL POPULATION,

During the past seven years the increase in school population has been 7,796; the increase in attendance, 6,496; and in valuation of school property, \$1,833,508.19 Seventy-three new school buildings have been constructed in the state during the past two years, costing \$340,628.16. In 1901 there was \$1,-481.04 expended on school libraries, and in 1902, \$4,525.69 was spent for that purpose. It is recommended that a small tax levy be assessed each year by the trustees to provide a library the beginning of 1901 there were only five public high schools, while at the present time there are 10 in différent parts of the state.

Superintendent Nelson recommends be made for the maintenance of the state university and the Agricultural college, instead of depending upon the biennial appropriation from the state It is also recommended that the free textbook system be adopt ed throughout the state as it would save thousands of dollars each year, the boards being able to purchase books at was \$1.52.721.70 or \$17.77 per capita of the purchase books at the purchas

Last Sad Rites Over the Remains of Job Rollingworth.

Funeral services over the remains of Elder Job Hollingworth were held from the Center ward, meetinghouse at 11 a. m. yesterday, Bishop Albert W. Davis presiding. The choir sang. "O My Father." Prayer was offered by Elder Samuel B. Hazen followed by the hymn, "Farewell, all earthly honors." Comforting words were spoken to the be-reaved by Elders David F. Davis and Caleb E. Pye, with closing remarks by Bishop Davis, after which the choir rendered the beautiful hymn, "Rest for the weary soul," and benediction was pronounced by Elder William E. Langford. Several beautiful floral offerings were placed on the casket, one from the employes of Clark, Eldredge & Co., there the two surviving sons are emsociation, to which they both belong. The grave was dedicated by Bishop Albert W. Davis, and the simple services were ended.-Millennial Star,

LAURA BIGGAR, HER EX-HUSBAND AND THE LATE MILLIONAIRE BENNETT.

A very interesting case is that of Laura Biggar, the former actress, accused of conspiring with others to get the millions of Henry M. Bennett. She claims he married her in January, 1898. A peculiar phase of the case is that her ex-husband, McConnell, traveled from Wisconsin to New Jersey to testify in her behalf.

Boise, Idaho, Jan. 2.-The supreme court foday granted a writ of mandamus directing State Engineer Ross to turn over his office, thus recognizing the act of his removal by Governor Hunt a few weeks ago as valid. The trouble between the two officials arose over some questions in relation to the Twin Falls irrigation enterprise, which were settled by the state land board the first of the week as Mr. Ross desired. However, the governor removed Ross on account of his position. Ross refused to acknowledge his removal, and the governor appealed to Attorney General Martin to bring mandamus proceedings. The latter refused, and the governor then secured A. Frazer to bring proceedings. The hearing was had Wednesday and the decision hand. ed down today.

RABBIT HUNTERS ARE HOME.

Had a Merry Time of It Exterminating Long-Eared Jacks-Over 1,500 Killed and Shipped Here for Distribution Among the Poor-Banquet and Dance.

This morning there arrived at the ! Oregon Short Line depot 10 happy hunters and their wives, also a carload of bunnies minus their ears. As ears are worth five cents a pair down in Juab county they were left behind, but the rabbits, some 1,500 in number, will doubtless taste just as well without them and will be just as acceptable, The gory corpses were consigned to the presiding Bishop of the Church by Bishop Parks of Nephi for distribution among the poor.

From glowing accounts brought back from the scene of the battle the slaughter of the innocents was terrific. In all over 2,000 long-eared ruminants were bowled over, which will mean at least 3,000 bushels of grain saved to the farmers of Juab county. Had it not been for the actions of divers pirates from Levan, who shot over the country r a week past and made the bunnle thereby as timid as bashful maidens in the vicinity of a sprig of mistletoe, the returning Himrods say they would have killed a thousand more.

In all there were over 150 guns in action, not counting the buccaneers from Levan who hung on the flanks of the hunters and got several wagonloads on their own account. No one was hurt, although three hunters fell down and got the barrels of their guns choked with snow so that when they pulled the trigger there were surprising results

in the form of barrels bursting.

Nephi, Provo and Salt Lake contributed to the slaughter, there being about 75 residents from the Garden City and their with which will be the state of th and their wives who went down. The

who took charge of the ladies and un-dertook to entertain them. Then the train pulled out to a point about two miles north of Juab, where the gunners split in two parties on either side of the track, and worked down toward the Nephites, who were coming from the opposite direction. There was considerable shooting ere the crowd finally surrounded a big 40-acre field at 2 p. m Here, out on the snow in plain sight the rabbits held a convention, about 1,000 delegates more or less agitated being present. It was a case of guns to the right of them, guns to the left of them volleyed and thundered. The rab-bits had an awful session in the snow, nevertheless a very heavy percentage

got clean away.
Owing to the nature of the crust of the snow the party was decidedly fag-ged out when 5 o'clock came, and they returned to Nephi. Here they were met by the committee and escorted to the Reed and Bryan hall, where a sumptuous banquet of hot chicken and meats was provided for their delectation. Afthe opera house and the other at the meetinghouse, were in order. The Provo visitors danced until 11:30, when they returned home on a special. The Salt Lakers, however, remained over until this morning. One and all voted the affair a joyous one while the proceeds of the bounty of five cents per pair of rabbit ears came in very handy as a means of defraying a portion of the expenses of the entertainment.

Among the Salt Lakers who assisted at the obsequies were George A. Smith, O. C. Beebe, Drs. L. W. Snow, E. C. Wright and C. W. Gates, Daniel Harrington and Capt. Bartlett, the expert

Utah Cadet Falls in His Mathematical Examination.

Edward Dexter Lecompte of Park City, and a member of the Sophomore ciass at the United States Military academy, has been found deficient in mathematics at the semi-annual examinations, and ordered home to await orders from the war department. The young man has been confined to his bed by stekness for nearly a month, and was in no condition to go through the ordeal of an examination. So he has gone to Washington to see the secretary of war and ask for another examination later, when he shall have had an opportunity to study up, or be set back a year, and given the time to recuperate. Senator Rawlins appointed Lecompte, and when his attention was called to the matter today, said the young man had not notified him yet; but that when he did, the senator would take such steps as may be necessary in seeing that justice is done.
